Milan, Italy - 12 July 2023

PlaySys is delighted to announce that **DREAMERS** is available for pre-order on Xbox One and Xbox Series following the ID@Xbox showcase of July 11.

Scheduled for an official release on September 1st across Xbox and PlayStation consoles, DREAMERS presents an exciting opportunity for players to secure their copy with a 10% discount during the summer vacation period, along with access to a special demo.

"The chosen level for this summer demo holds great significance in the game's development" - as stated by Luca Deriu, the author and developer of DREAMERS. - "This level, featuring a single-player multi-character split-screen collaborative puzzle maze, served as a perfect testing ground for implementing and refining the game's core mechanics. It formed the foundation of the PlaySys Interaction Framework, the technical backbone supporting the immersive DREAMERS experience. Thus, this level was carefully selected to offer a sneak peek into the game".
